

NIDUS 8th ANNUAL DELIRIUM BOOT CAMP

October 28-29, 2020 • **VIRTUAL SESSIONS**

Meet the Experts

Faculty Grant Reviews

Networking

Didactic Sessions

PRESENTATIONS BY WORLD DELIRIUM EXPERTS

Sharon K. Inouye, E. Wesley Ely, Donna M. Fick, and Many Others

Sharon K. Inouye, MD, MPH
Professor of Medicine
Harvard Medical School BIDMC
Director, Aging Brain Center,
Marcus Institute for Aging Research

E. Wesley Ely, MD, MPH
Professor of Medicine
Vanderbilt University
School of Medicine

Donna M. Fick, PhD, RN, FGSA, FAAN
Elouise Ross Eberly Professor
of Nursing and Medicine
The Pennsylvania State University

The Delirium Boot Camp was founded in 2013 through an NIA Leadership Award (K07AG041835) to Dr. Sharon K. Inouye to establish the Center for Excellence for Delirium in Aging: Research, Training and Educational Enhancement (CEDARTREE). The Delirium Boot Camp has now evolved to be a major activity of the NIDUS Mentorship and Career Development Task Force, funded by an NIA Network Grant (R24AG054259, PI Inouye), under leadership of Donna M. Fick, PhD, MSN, and E. Wes Ely, MD, MPH.

There are now over 80 alumni of the Delirium Boot Camp program, which has expanded to include international participants as well as participants from across the United States and Canada. The Boot Camp includes didactic sessions on a variety of delirium-specific research topics ranging from biomarkers to qualitative research, as well as a mock grant review, CAM training and more.

PAST PROGRAM HIGHLIGHTS

- ✓ Delirium in Older Persons
- ✓ Pathophysiology in Delirium
- ✓ Clinical Trials
- ✓ Interactive CAM Training
- ✓ 1:1 Faculty Grant Reviews
- ✓ Networking Topics
- ✓ CAM & 3D-CAM Overview
- ✓ Non-pharmacological Delirium Interventions
- ✓ Qualitative & Mixed Methods
- ✓ Pathophysiology & Fluidized Biomarkers & CSF
- ✓ Integrating Delirium Measurement Into Research
- ✓ Methodological Challenges

The 2020 Boot Camp is intended for persons with previous research training and experience. Faculty and research fellows who meet the following criteria are eligible to attend:

- Previous training in the fundamentals of clinical research
- At least 1-2 years of previous research experience
- Hold an MD, PhD, or other doctoral level degree (may consider strong advanced predoctoral candidates in this area)
- Interest and passion for delirium research
- Must have 50% protected time for research
- Once accepted, willingness to devote 8-10 hours of advance preparation time for the Bootcamp (beyond preparing the application and proposal)

**Applications must
be submitted by
July 17, 2020
5:00 p. m. EST**

APPLICATIONS AVAILABLE AT: deliriumnetwork.org/career-development/boot-camp-application/
