NIDUS Delirium Research Catalog

[Now Accepting Qualified Research Studies](#)

RRC team members from left to right: Tim Tsai (Programmer Analyst), Jackie Gallagher (Coordinator), Ed Marcantonio (Core Leader), Fah Vasunilashorn (Researcher), Tom Trivison (Co-Leader). Pratik Pandharipande (Co-Leader) not pictured.

The Research Resources Core (RRC) team developed a Delirium Research Catalog to serve as a catalyst for research collaborations and to assist clinicians and researchers conducting meta-analyses and systematic reviews. For additional details about the Delirium Research Catalog, please visit our website: [NIDUS Network for Investigation of Delirium: Unifying Scientists](#).

You are invited to submit your research studies into the [Delirium Research Catalog!](#)

Inclusion Criteria

The inclusion requirements include:

- Human subject studies only including genetic, biomarker and neuroimaging studies
- Delirium as either the primary or secondary outcome or predictor
- The minimum sample size of 20
- Any study within a larger study that uses a distinctly different sample, adds new types of measures (e.g. imaging, biomarkers), or has a different Principal Investigator should be entered separately. Sub-studies using the same sample and measures as the parent study and with the same PI should not be re-entered.
