NIDUS continues its partnership with the American Delirium Society at its next Annual Meeting June 16-18, 2019.

This 3-day conference, expected to draw more than 400 investigators, educators, and clinicians from all spectrums of healthcare, is truly the destination for professionals dedicated to delirium care at every level of their career. The ADS conference is all about learning, networking and making connections. The diverse group of attendees, across many disciplines and countries, are each dedicated to making a difference for patients across all care settings who are at risk for delirium or who develop delirium.

Our 2019 annual meeting is larger than ever with more than 25 symposia and workshops, 10 oral abstract sessions, a large poster session and a robust all-day Pre-Conference. More than 100 internationally-recognized, faculty will deliver cutting edge clinical and research presentations encompassing all aspects of delirium care. We are proud to say that at ADS 2019 there will be something for everyone!

NIDUS leaders will present an overview of NIDUS resources and programs at 11:30 on Monday, June 17. We promise this will be a fun adventure through NIDUS that you don't want to miss! NIDUS leaders will also chair two back-to-back oral presentation sessions on Monday afternoon, including presentations by the 2017 NIDUS Pilot awardees.

The 2019 Annual Meeting program brochure is [available here](#). We are hopeful that you will be able to forward this brochure to your colleagues and encourage them to attend.

Meeting registration and hotel reservations are now open. Take advantage of the early-bird registration discounts that end March 15, 2019 <https://americandeliriumsociety.org/2019-conference-information>

We look forward to seeing you in Boston this June!
