The NIDUS Delirium Research Hub: 10 Questions

Ten pertinent questions about accessing, navigating, and entering studies into the Hub.

New AGS Resource for Emerging Investigators
Are you a new or emerging investigator interested in including older adults with multiple chronic conditions in your research? The AGS/AGING LEARNING Collaborative website has all the tools you need.
Dr. Sharon Inouye BJA article: Preventing dementia by preventing delirium

The British Journal of Anaesthesia recently published an article co-authored by Dr. Sharon Inouye highlighting “evidence of the strong inter-relationship between delirium and dementia.”

Estimating the number of cases of dementia that might be prevented by preventing delirium

Cara S. Rathmell1,2,3*, Oluwaseun Akeju1,4, Sharon K. Inouye5,6 and M. Brandon Westover2,3,4

About NIDUS

NIDUS is a collaborative research network dedicated to spurring innovation and new advances in delirium research through development of new research and measurement resources, training opportunities, pilot funding and dissemination of information. It is funded through an award from the National Institutes of Health/National Institute on Aging (grant no. R33AG071744, PI: Inouye).
